World's Greatest Lottery Proposed to Aid Britain
LONDON.—The Sunday newspaper, "The People," featured details of a scheme "to be put before the British Government" to set the largest lottery in history in aid of the war effort.

The paper said the scheme proposed the sale of all over the world of 2,000,000,000 tickets, at \$4 each, and the giving away of just over half the amount collected in prizes. This, after all, would be deducted one per cent, would result in a profit to the British treasury of \$100,000,000, the newspaper said.

Denis Smith, chairman of the Canadian Bank of the East, who was said to have worked out the plan, was quoted as saying that it had the support of many of the biggest banks, insurance companies and finance houses. Lord Catto, chairman of the Bank of Montreal, also had expressed an interest in the plan which would be put before the treasury. Smith was quoted as saying, "First prize in the lottery would be \$100,000,000, distributed among the holders of tickets in the winning class of 1,000 tickets."

Butcher's Idea Will Benefit Customer
PHILADELPHIA.—George Rockenstein, 32-year-old North Philadelphia butcher, says he plans to sign up 20 customers, will then meet weekly and charge a blanket fee of \$1.25 per customer.

Under his plan, Rockenstein said, his customers will get "free meat on the bone" out of every month, adding that the average butcher mark-up for profit is 30 per cent, which means "my plan means at least a saving of 20 per cent, monthly for each customer."

I get 500 patrons," Rockenstein said, "the weekly fee will be cut to 75 cents."

Salt and other minerals are washed into the sea continually at an estimated rate of 2,000 million tons a year.

Riper Old Age Dominion Survey Shows People Live Longer On The Prairies

OTTAWA.—You may not know this, but right this minute you have a better chance of living to a ripe old age than you did, say, 10 years ago. And, if you're a woman, you'll likely live longer than if you were a man. And, finally, if you live on the Canadian prairies, your chances of reaching the hay-wire bracket are better than those of Canadians living elsewhere in the broad Dominion.

The statistics say so, and the statistics have a habit of proving to be unaccountably—in this case, correct.

These life-expectancy figures turned up in the Dominion's 1946 census, based on surveys of the 1931 and 1941 census and mortality of 1940-42.

At birth, males have a prospect of 68 years of future life, live to be against 60 years in 1931 while females can look forward to 68.9 years compared with 62.9 in 1931.

The statistics prove, too, that prairie, with their broad open spaces, are the best place to live. Western baby boys, for example, will live to be 69.5, more than 10 years longer than their Quebec brothers, whose expectancy is placed at 59.5 years.

In Ontario, the male expectancy is 65.5, British Columbia 63.0 and the Maritime provinces 61.0.

On paper, there's quite a difference between the girls living here and the prairie, Ontario and B.C. They all are expected to live to be 68 but the B.C. girls have a fractional margin in those of the other two provinces, in the maritime, the expectancy is 64.0 and in Quebec 62.0.

And aren't you glad you don't live in India? The expectancy there is 36.9 years for boys and 38.6 for girls.

One U.S. Dollar Worth \$145,000 in Chinese Money
SHANGHAI.—The Chinese dollar dropped to a new low of 145,000 to the U.S. dollar.

The government foreign exchange equalization committee, striving to bring within shooting distance of the black market, urged its open-market quotation from 44,000 to 75,000 to one. The government's official exchange rate, virtually ignored now, remains at the almost-forgotten low of 12,000 to one.

Financiers said that unless the run-away inflation soon gets to a point, any program of United States aid would find it a great deal harder to keep.

GOOD STORY ABOUT MARGARITA
The Canadian, Joe B. Brown, writes that in the course of his tour of the Pacific theatre of war during the late conflict, he was one day thrilled by the prospect of being "brought back" to his home in England.

When the two men had finally been brought together for the picture, Brown could not help but exclaim, "What an honour!" Whereupon the General explained, "The picture is for my little son, Joe. He was dead photographed with a 'cemetery'."
